FACT SHEET

ABOUT DRDGOLD

DRDGOLD (JSE, NYSE: DRD) is one of the oldest continuously listed companies on the Johannesburg Stock Exchange (JSE) and has a secondary listing on the New York Stock Exchange (NYSE). It is the only company in South Africa focused solely on the retreatment of surface gold tailings. The Company has two major production footprints – the Far West Gold Recoveries (FWGR) operation to the west; and Ergo Mining Proprietary Limited (Ergo), a major surface gold tailings retreatment operation extending from central Johannesburg to Ekurhuleni in the east. Our network of assets is unrivalled in South Africa and our focus is to optimise these assets to increase gold production and mine as much of our resource as we possibly can.

GROUP STRUCTURE

DRDGOLD and Sibanye-Stillwater completed a transaction in August 2018 whereby Sibanye-Stillwater sold selected assets from its West Rand Tailings Retreatment Project – subsequently renamed FWGR – for a 38.05% shareholding in DRDGOLD. In January 2020, Sibanye-Stillwater increased its holding in DRDGOLD from a 38.05% to 50.1% equity interest which secured the majority shareholding.

SIBANYE-STILLWATER[1] 50.1%

PUBLIC OWNERSHIP 49.0%

NON-PUBLIC OWNERSHIP[2] 0.90%

DRDGOLD LIMITED

ERGO 100%

FWGR 100%

[1] Sibanye Gold Proprietary Limited trading as Sibanye-Stillwater.

[2] Includes shareholding by subsidiary, EMO, of 0.76% and shareholding by directors of the Company of 0.13%. Such shareholding is classified as non-public.

Ergo was previously owned by Ergo Mining Operations (Proprietary) Limited (EMO). EMO was 74% owned by DRDGOLD Limited and 26% by our broad-based black economic empowerment (BBBEE) partners – Khumo Gold SPV Proprietary Limited (Khumo) and the DRDSA Empowerment Trust. In FY2015, an agreement with our BBBEE partners entailing a roll-up of shareholding included the substitution of their 26% shareholding in EMO for 8.1% and 2.4% shareholding in DRDGOLD Limited respectively. At 30 June 2022, Khumo and the DRDSA Empowerment Trust held nil shares in DRDGOLD.

WHY DRDGOLD

South Africa-based world leader in large-scale gold tailings retreatment – in FY2022

- 9.81Moz Minerals Resources
- 6.04 Minerals Reserves
- 1 000km² operating footprint
- 5 720kg of gold production
- Volume throughput 28.2Mt
- 0.197 g/t yield

Highly mechanised

- Digitisation – 24/7/365 operational surveillance
- Small, skilled and experienced workforce
- Years' – long track record of labour stability

Health and safety remain top priorities

- Aim to reduce and ultimately eliminate health and safety threats
- 1.84 lost time injury frequency rate (LTIFR) in FY2022
- 0.66 reportable injury frequency rate (RIFR) in FY2022

Environmental Impact

- Reclamation of old tailings frees up sterilized land for sustainable use
- Environmentally vulnerable areas (wetlands) restored through removal of tailings
- Zero waste model using mostly grey water

Power and water supply stability

- Curtailment agreement with power utility Eskom to avoid interruption of electricity supply
- Construction of a 20MW solar project began and installation of medium voltage grid connection works
- Process water mostly grey/ recycled in closed circuit with minimal potable water dependence

Social programmes designed to enable communities to be self-sustainable

- Providing skills development
- Alleviating poverty and educating the youth
- R52.9m total social and economic development spend
- 23% of employees are women in mining
- 74% of employees are historically disadvantaged South Africans

FAR WEST GOLD RECOVERIES (FWGR)

DRDGOLD's FWGR operation, near Carletonville in South Africa's Gauteng province, has become a value-driven asset for the Company since it was acquired from Sibanye-Stillwater in July 2018. The acquisition was instrumental to the Company's growth strategy, increasing its gold reserves by 90%.

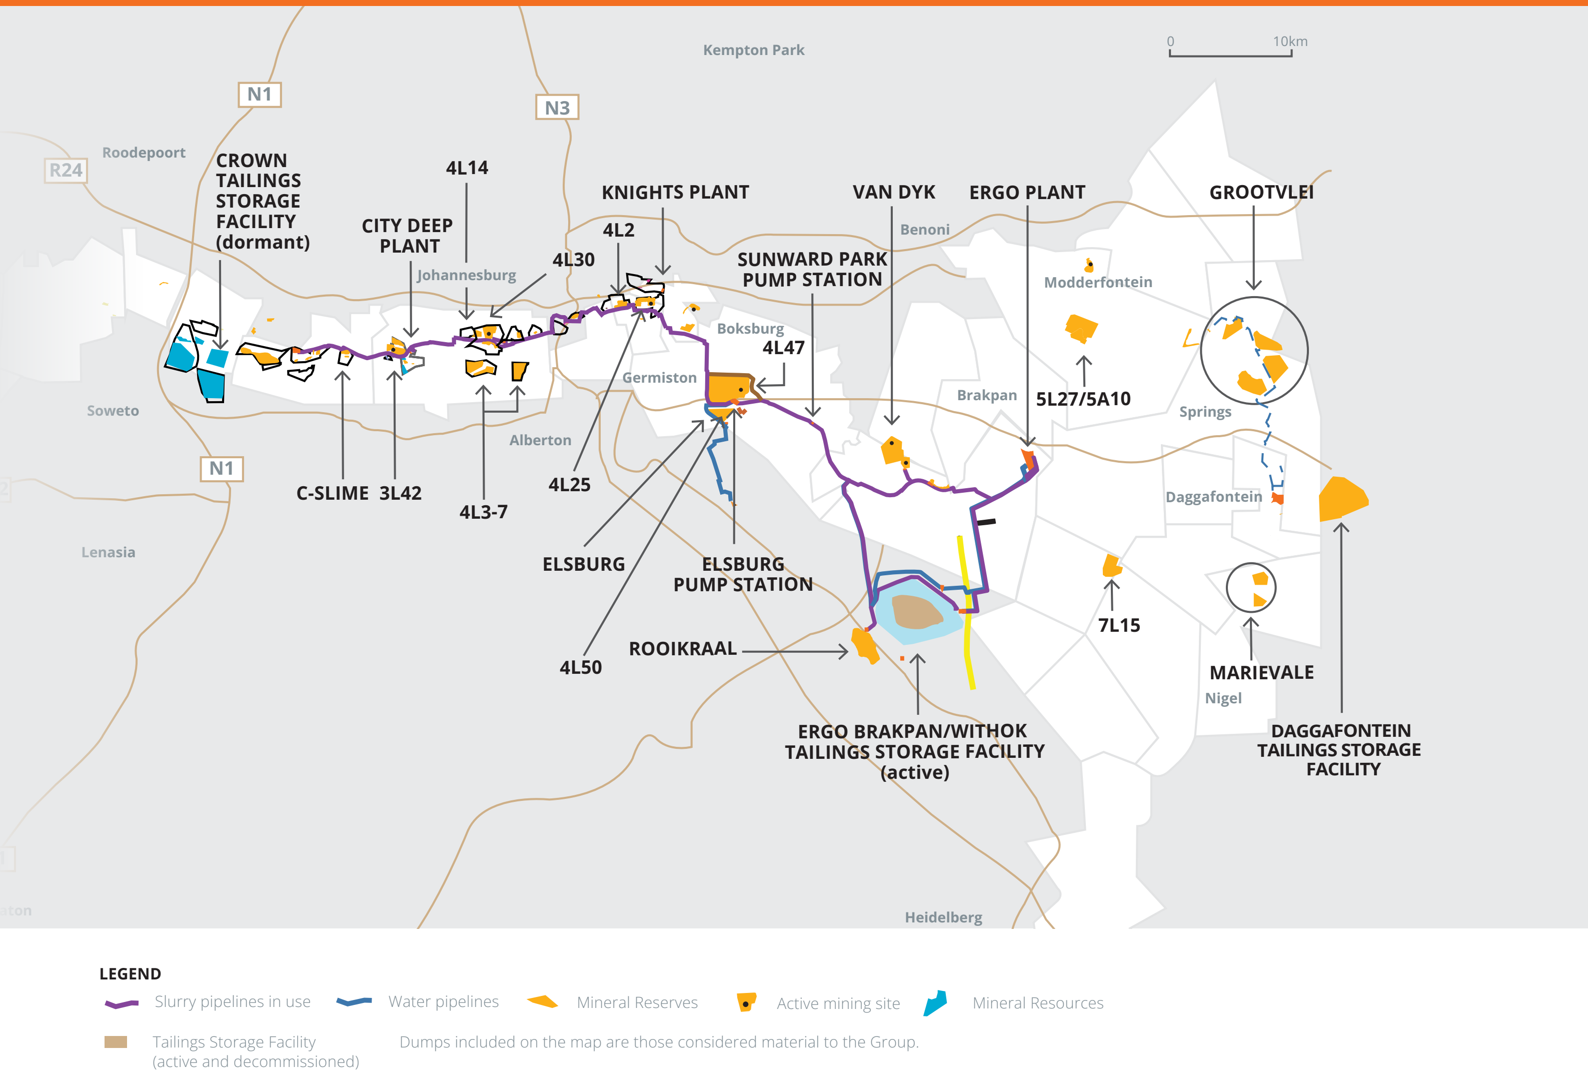
ERGO



ERGO

Ergo has a vast footprint adjacent to Johannesburg on the central and eastern Witwatersrand of South Africa. Its assets cover an area approximately 62km from east to west and 25km from north to south. This large, single footprint was created as part of a rationalisation process and in order to simplify the structure of DRDGOLD's companies. A single retreatment business also has the effect of improving synergies and saving costs.

The Company's flagship metallurgical plant, Ergo, some 50km east of Johannesburg in Brakpan, and the Knights plant in Germiston, together comprise what is arguably the world's largest gold surface tailings retreatment facility. Together with the milling and pump station at Crown Mines and City Deep (both former plants), the new consolidated Ergo treats approximately 1.7Mt per month.

DRDGOLD VALUE PROPOSITION

MINERAL RESOURCES AND RESERVES

DRDGOLD's Mineral Resources decreased to 9.81Moz (FY2021: 10.12Moz) mainly due to depletions as a result of production.

DRDGOLD's Mineral Reserves increased to 6.04 (FY2021: 5.35Moz) mainly as a result of Minerals Resources upgrade in FY2022. The current Mineral Reserves reflect an operating life of 19 years for the Ergo operations and 20 years for FWGR.
